Wide Spreading Unit V-Spread

Perfect spreading quality | Working widths up to 36 m

Vspread

Granular lime

Compost

Lime

Mushroom compost

**Patented and DLG-tested:
The new BERGMANN wide spreading unit V-Spread**

The effective combination of the V-shaped arrangement of the spreading discs with a simultaneous increase in diameter enables a more even distribution of the spreading material over the spreading discs and thus also a perfect distribution in the field.

Depending on the spreading material, this makes working widths (tramline spacing) of up to 36 m possible - and this with optimum lateral distribution.

V-Spread achieved top marks in the DLG test and was awarded the "DLG-ANERKANNT" (DLG Approved) quality seal.

LUDWIG BERGMANN GMBH
TSW 6240 W MIT V-SPREAD
✓ Verteilqualität Stallmist
DLG-Prüfbericht 7257

LUDWIG BERGMANN GMBH
TSW 2140 E MIT V-SPREAD
✓ Verteilqualität Stallmist
DLG-Prüfbericht 7256

Spreading pattern with V-Spread

Spreading pattern with standard spreading unit

Advantages:

- ▶ Larger working width due to V-shaped spreading discs arranged lateral to the direction of travel
- ▶ Less passages per area due to larger working width, thus avoiding soil compaction
- ▶ Use of tramlines over 24 m also possible
- ▶ Increased throughput compared to standard spreaders
- ▶ Reduced wear due to reduced number of passages

Cattle manure

V-Spread is currently available for the BERGMANN universal spreaders

- ▶ TSW 2140 E
- ▶ TSW 5210 S
- ▶ TSW 5210 W
- ▶ TSW 6240 S
